PROFESSIONAL SUMMARY

Full Stack JavaScript Developer with hands-on experience designing and shipping production-grade MERN stack web and mobile applications, RESTful APIs, and AI-integrated tools. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL, with proven ability to architect secure authentication systems (JWT, Role-Based Access Control), optimize database performance, and deploy scalable full-stack applications on Vercel, Render, and Netlify. Strong background in Agile collaboration, REST API design, and end-to-end product delivery.

CORE TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend Development: React.js, Next.js, Redux Toolkit, React Native, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, REST API Design, MVC Architecture, JWT Authentication, RBAC Authorization

Databases & ORM: MongoDB, Mongoose, PostgreSQL, Prisma ORM

AI & Integration Tools: DeepSeek AI, OpenAI API, Prompt Engineering, AI-Powered Application Development

DevOps & Tools: Git, GitHub, Docker, CI/CD, Postman, Figma, Cloudinary, EmailJS

Deployment Platforms: Vercel, Render, Netlify

WORK EXPERIENCE

Software Developer Intern — Jitepra Edu Pvt. Ltd.

Apr 2025 – Aug 2025

- Developed One_Tab School ERP and DeepGlam B2B mobile applications using React Native, Node.js, and Express.js, delivering cross-platform solutions for multiple user roles.
- Implemented JWT authentication and Role-Based Access Control (RBAC) to secure multi-role access across student, faculty, admin, buyer, and seller portals.
- Designed and built RESTful APIs for attendance tracking, fee collection, product listings, and order management, improving backend data reliability.
- Collaborated with cross-functional team members in an Agile environment, using Git and GitHub for version control, code reviews, and sprint-based delivery.

PROJECTS

ResumeAI Pro — AI-Powered ATS Resume Analyzer

Next.js · TypeScript · Node.js · Express.js · PostgreSQL · Prisma · DeepSeek AI

- Built a full-stack AI resume analyzer that generates ATS compatibility scores, role-match percentages, and actionable improvement suggestions.
- Engineered REST APIs with Express.js and Prisma ORM to process resumes and persist analysis history in PostgreSQL.
- Integrated DeepSeek AI through structured prompt engineering to deliver consistent, role-specific feedback; deployed on Vercel and Render.

Aylish Salon — Full Stack Management System

React.js · Node.js · Express.js · MongoDB · WhatsApp API · EmailJS

- Built an end-to-end salon management platform featuring appointment booking, service management, and an admin dashboard.
- Integrated WhatsApp API and EmailJS notifications to automate booking confirmations and reminders, improving customer engagement.

One_Tab — School ERP Mobile App (Internship Project)

React Native · Node.js · Express.js · MongoDB · JWT · RBAC

- Developed a cross-platform ERP application with dedicated dashboards for Admin, Faculty, Parents, and Students.
- Implemented attendance, fee collection, exam results, and class scheduling modules with optimized MongoDB queries for faster data retrieval.

DeepGlam — B2B Clothing Marketplace (Internship Project)

React Native · Node.js · Express.js · MongoDB · Cloudinary · JWT

- Built a B2B marketplace enabling sellers to manage inventory and buyers to browse, purchase, and track orders in real time.
- Integrated Cloudinary for product image management and implemented role-based Seller and Buyer dashboards.

MAA Furniture — Business Showcase Website

Next.js · TypeScript · CSS · EmailJS

- Developed a responsive business website featuring product categories, furniture listings, image galleries, and an inquiry form.
- Integrated EmailJS for direct customer inquiries and optimized site performance using Next.js image optimization and SEO-friendly routing.

EDUCATION

Bachelor of Computer Applications (BCA)

Axis Colleges, Kanpur — Chhatrapati Shahu Ji Maharaj University (CSJM University)
