PROFESSIONAL SUMMARY

BCA graduate (2026) with hands-on experience building **3+ live client products** and **2 internship projects** using React.js, Next.js, React Native, Node.js, Express.js, and MongoDB. Proficient in full-stack JavaScript/TypeScript development, RESTful API design, JWT authentication, and responsive UI engineering with Tailwind CSS and Redux Toolkit. Actively integrating AI/LLM capabilities including RAG pipelines, vector databases, and OpenAI API into production applications. Strong foundation in Agile/Scrum workflows, Git-based collaboration, and performance optimization for scalable systems.

TECHNICAL SKILLS

LANGUAGES	JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
FRONTEND	React.js, Next.js, React Native, Redux Toolkit, Tailwind CSS, Material UI, Responsive Design
BACKEND	Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, Role-Based Access Control
DATABASES	MongoDB, PostgreSQL, Vector Databases (Pinecone / ChromaDB)
AI / LLM	OpenAI API, RAG (Retrieval-Augmented Generation), Embeddings, Prompt Engineering, LLM Integration
DEVOPS & TOOLS	Git, GitHub, Docker, Cloudinary, Vercel, Render, Postman, VS Code

EXPERIENCE

Jitepra Edu Pvt. Ltd. (Brainiac Training Centre)

Apr 2025 – Aug 2025

Software Developer Intern – React Native & MERN Stack · Noida, UP (On-site)

- Situation:** Tasked with building two cross-platform mobile apps from scratch — a School ERP (One_tab) and a B2B clothing marketplace (DeepGlam) — to replace manual workflows. **Action:** Architected full-stack solutions using React Native, Node.js, Express.js, and MongoDB with JWT-based role-based access control (Admin, Faculty, Parents, Students, Seller, Buyer). **Result:** Delivered both apps on schedule, optimized to handle 200+ concurrent users with sub-300ms API response times.
- Integrated Cloudinary for media uploads and designed 15+ RESTful API endpoints covering authentication, inventory, attendance, and order management modules.
- Reduced onboarding friction by implementing multi-role dashboards with granular permission layers, cutting admin task time by an estimated 40%.
- Collaborated in Agile sprints (2-week cycles), conducted peer code reviews via GitHub pull requests, and maintained clean Git branching strategy across a 4-member team.

KEY PROJECTS

ResumeAI Pro — AI-Powered ATS Resume Analyzer

Live: resume-ai-pro-livid.vercel.app

Next.js · TypeScript · Tailwind CSS · Node.js · Express.js · PostgreSQL · Prisma · DeepSeek AI · Vercel · Render

GitHub: ResumeAIPro

Built a full-stack AI resume scoring platform that analyzes resumes and delivers real-time feedback: ATS score (0–100), role-match percentage, missing-keyword detection, strengths/weaknesses analysis, and priority-based improvement suggestions with project ideas. Integrated DeepSeek AI for LLM-driven analysis and built downloadable PDF report generation. Deployed full-stack architecture on Vercel + Render with PostgreSQL/Prisma data layer.

ProShipStar — Logistics Platform

React.js · Tailwind CSS · EmailJS · Responsive Design

Built a modern logistics frontend with real-time shipment tracking dashboard and dynamic inquiry forms. Implemented mobile-first responsive design; platform serves **500+ daily active users**. Reduced form submission errors by 25% via client-side validation.

One_tab — School ERP (Internship)

React Native · Node.js · Express.js · MongoDB · JWT

Cross-platform mobile ERP for school administration. Implemented role-based dashboards with modules for fee collection, attendance tracking, result generation, and class scheduling for **4 distinct user roles**.

Aylish Salon — Full-Stack Management System

React.js · Node.js · Express.js · MongoDB · WhatsApp API · EmailJS

Engineered end-to-end salon management with appointment booking, service catalog, and admin dashboard. Integrated WhatsApp Business API for automated booking confirmations. Deployed on Vercel + Render with CI/CD pipeline; achieved **99.5% uptime**.

Kheth Spices — eCommerce Frontend

React.js · Tailwind CSS · JavaScript · EmailJS

Responsive eCommerce storefront with category filters, product cards, and optimized checkout flow. Performance optimizations (lazy loading, code splitting) improved user engagement by **30%** and reduced bounce rate by 18%.

EDUCATION

Bachelor of Computer Applications (BCA) – Axis Colleges, Kanpur (CSJM University)

2023 – 2026

Relevant Coursework: Data Structures & Algorithms, Web Technologies, Database Management Systems, Operating Systems, OOP
