PROFESSIONAL SUMMARY

Full Stack JavaScript Developer (MERN) with 1+ year of experience building and deploying production-grade web and mobile applications using React.js, Node.js, Express.js, and MongoDB. Delivered 4+ full stack products, including a School ERP system, B2B marketplace, and salon management platform, with secure JWT/RBAC authentication and RESTful API design. Also worked with Next.js, React Native, and PostgreSQL/Prisma on select projects. Comfortable across the full development lifecycle -- from database design to API development to frontend implementation -- with strong Git/GitHub workflow and Agile/Scrum collaboration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, RESTful API Design

Database: MongoDB, PostgreSQL (SQL), Prisma ORM

Tools & Version Control: Git, GitHub, VS Code, Postman

DevOps & Cloud: Docker, AWS (Basics)

AI Integration: DeepSeek API, OpenAI API, Gemini API

API & Documentation: OpenAPI (Swagger)

WORK EXPERIENCE

Full Stack Developer — Jitepra Edu Pvt. Ltd. (Brainiac Training Centre)

Apr 2025 – Apr 2026 | Noida, India

- Built and shipped 2 production MERN and React Native applications (School ERP and B2B Marketplace platforms), serving 5 distinct user roles across student, faculty, admin, buyer, and seller portals.
- Engineered JWT authentication and Role-Based Access Control (RBAC) to secure multi-role access across all portals, strengthening application security.
- Designed and developed RESTful APIs for attendance tracking, fee collection, product listings, and order management, improving backend data reliability and consistency.
- Collaborated with cross-functional team members in an Agile environment, using Git and GitHub for version control, code reviews, and sprint-based delivery.

PROJECTS

ResumeAI Pro — AI-Powered ATS Resume Analyzer

Tech Stack: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, DeepSeek AI, Vercel, Render

- Built a full stack AI resume analyzer that generates ATS compatibility scores, role-match percentages, and actionable improvement suggestions.
- Engineered REST APIs with Express.js and Prisma ORM to process resumes and persist analysis history in PostgreSQL; integrated DeepSeek AI via structured prompts for consistent, role-specific feedback.

One_Tab — School ERP Mobile App

Tech Stack: React Native, Node.js, Express.js, MongoDB, JWT, RBAC

- Developed a cross-platform ERP mobile app with dedicated dashboards for Admin, Faculty, Parents, and Students.
- Built attendance, fee collection, exam results, and class scheduling modules with optimized MongoDB queries for faster data retrieval.

DeepGlam — B2B Clothing Marketplace

Tech Stack: React Native, Node.js, Express.js, MongoDB, Cloudinary, JWT

- Built a B2B marketplace enabling sellers to manage inventory and buyers to browse, purchase, and track orders in real time.
- Integrated Cloudinary for product image management and implemented role-based Seller and Buyer dashboards to streamline transactions.

Aylish Salon — Full Stack Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, EmailJS

- Built an end-to-end salon management platform with appointment booking, service management, and an admin dashboard.
- Integrated EmailJS notifications to automate booking confirmations and reminders, improving customer engagement.

EDUCATION

Bachelor of Computer Applications (BCA)

Axis Colleges, Kanpur — Chhatrapati Shahu Ji Maharaj University (CSJM University)
